Around customer needs

Proponiamo elementi distintivi che escono dagli schemi tradizionali per adattarsi o esaltare lo stile degli interni. I materiali e le diverse finiture interpretano con coerenza la personalità di ogni progetto. Scegliere tra la rigidità del metallo o la sensazione tattile del Fenix NTM®, abbinare finiture opache o lucide, personalizzare con icone o testi: scelte personali fatte per creare un oggetto unico.

We propose distinctive elements that break out of traditional patterns to fit or enhance the style of the interior. The materials and different finishes consistently interpret the personality of each project. Choose between the rigourousness of metal or the tactile sensation of Fenix NTM®, combine matte or glossy finishes, customize with icons or lettering: personal choices made to create a unique object.
